We conducted our audit in accordance with the auditing standards generally accepted in India. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial results are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the results. The procedures selected depend on the auditor's judgment, including the assessment of the risk of material misstatement of the results, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the company's preparation and fair presentation of the results in order to design audit procedures that are appropriate in the circumstances, not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Management, as well as evaluating the overall presentation of the Results.

We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion.

The Statement includes the results for the half year ended March 31,2019 being the balancing figure between audited figures in respect of the full financial year and the unaudited published year to date figures up to the first half of the current financial year which were subject to limited review by us.
